Instructional Services Customer Success Packages

**Prepare teachers for success with new levels of
professional development, support, and training.**

Edgenuity Instructional Services Professional Development

For lasting student success.

Comprehensive professional development is critical for teachers to understand and practice pedagogical shifts and excel at teaching in an online environment. K–12 educators who complete all Instructional Services Professional Development sessions are more likely to attain the competence to provide consistent, well-rounded instruction and positively impact student achievement.

Get support, onsite training, and leadership to ensure the fidelity of your implementation. With flexible delivery options, sessions targeted to your needs, and on-demand training, our experienced professional development team will set you up for success throughout the year.
