- ✘ Edgenuity Courseware runs on a web-based platform. Use of school Wi-Fi with an Edgenuity Media Appliance is recommended.
- ✘ Without access to an Edgenuity Media Appliance, 2 Mbps per concurrent user is recommended when using mobile devices.

Compatibility

- ✘ Smart phone and smart watch devices are not supported by Edgenuity.
- ✘ Secure Station, an Edgenuity feature that allows educators to limit user access to certain devices / computers, utilizes Java® and is not compatible with mobile devices.
- ✘ Districts can use the IP Registry feature to regulate which IP addresses are approved to take assessments. Since this feature does not require a Java plugin – it is a mobile friendly solution.

PLEASE NOTE:

Example devices listed above have been tested to be functional when using Edgenuity. Other devices not listed may be used providing they meet the minimum requirements.

Windows based tablets and the Windows RT operating system is fully supported by Edgenuity when using Edgenuity 3000+ series courses. Please reference the Minimum System Requirements document for additional information.

Chromebook™ and Android™ minimum system requirements and course compatibility information are located within the Chromebook Usage Overview and Android Usage Overview documents.
