Middle School

Online + Blended Learning Solutions for Students in Grades 6–8
Personalized Solutions that Ensure Academic Success

Today’s middle school classrooms need rigorous, engaging learning tools that support students’ varied learning styles. Edgenuity’s online solutions help students receive the instruction and practice they need to excel academically. Plus, with real-time data, customization, and management tools, teachers and administrators have the resources they need to intervene, motivate, and foster success.

Online Curriculum

Help students build content knowledge, critical thinking, and study skills.

Edgenuity Courseware™ for ELA, math, science, social studies, world languages, CTE, and electives is designed to help students meet the rigor of Common Core and state standards. Our courses can be used for initial credit, content, concept, or credit recovery, or in conjunction with other classroom resources to ensure subject-area mastery.

▪ **DIRECT INSTRUCTION VIDEOS:** Expert on-screen teachers provide instruction, model strategic thinking, and make real-world connections.

▪ **INTERACTIVE TASKS AND ASSIGNMENTS:** Students read, write, explore, create, practice, predict, and more in order to develop analytical and critical-thinking skills.

▪ **FORMATIVE AND SUMMATIVE ASSESSMENTS:** A variety of assessments test for mastery and provide immediate, actionable feedback for students and teachers.

▪ **INTERACTIVE LEARNING TOOLS:** A full suite of learning tools and scaffolds, including read aloud and text translation, help students access content, organize information, and complete assignments.
Personalized Intervention

Help students catch up, keep up, or get ahead.

MyPath™ is an online intervention program that offers data-driven differentiated instruction for mathematics and reading.

- **ASSESS STUDENTS:** A placement exam determines the best instruction for each student. Or, schools can import scores from NWEA™ MAP®, Growth™, Renaissance Star 360®, and Scantron® Performance Series® assessments to develop recommendations based on data you already have.

- **PERSONALIZE INSTRUCTION:** Based on the assessment data, the system automatically recommends an Individualized Learning Path that focuses on the skills and concepts each student is ready to learn.

- **MONITOR PROGRESS:** Detailed and dynamic reports provide educators with the tools to identify topics that are challenging for students and create flexible groups for reteaching.

Test Readiness

Ensure every student can be successful with adaptive practice, assessment, and instruction.

UpSmart™ is a new supplemental learning program designed to ensure all students in grades 6–8 can demonstrate mastery of state standards in ELA and math. The program uses adaptive assessments to continually determine what each student is ready to learn and then provides the right level of instruction and practice for each topic.

- **TOPIC SCREENER:** Students begin each topic with a short, targeted assessment designed to place students into the right level.

- **ADAPTIVE PRACTICE:** Students respond to a highly adaptive set of technology-enhanced tasks that reinforce and assess the skills in each level.

- **JUST-IN-TIME INSTRUCTION:** Students can receive a number of scaffolds—hints, answer-specific feedback, and direct instruction and modeling—to help them complete tasks and develop a deeper understanding of the skill being assessed.
Support for All Students

Embedded scaffolds and learning tools in our Edgenuity Courseware and MyPath support all students, including English language learners and students with special needs.

**TOOLBAR**
A robust toolbar provides highlighting, text annotation, read aloud, and lesson-specific tools.

**TRANSLATIONS**
Students can translate on-screen text into their home language.

**GLOSSARY + TRANSCRIPT**
Students can access a lesson glossary and a complete lesson transcript.

**VIDEO**
Students can pause and rewind any video to hear challenging concepts explained again.

**CAPTIONS**
Students can view simultaneous captions for all lessons.

**DIGITAL NOTEBOOK**
Students can take notes as they learn, encouraging active learning and providing a record teachers can review in real time.
