

Flexible Summer School  
*Give Students More Opportunities for Success*

# Engage and Challenge Students **All Year Long**

Partner with Edgenuity® to build a cost-effective summer school program that meets the needs of your entire district.

## PROVIDE PERSONALIZED REMEDIATION OR INTERVENTION

Pathblazer® (for elementary school) and MyPath® (for middle and high school) provide students with personalized, age-appropriate online intervention in math and reading.

## HELP STUDENTS RECOVER CONCEPTS AND CREDITS

Credit recovery courses offer self-paced learning so students can spend more time focusing on what they need, and our easy-to-use customization tools enable educators to create custom modules so students can also build concept mastery.

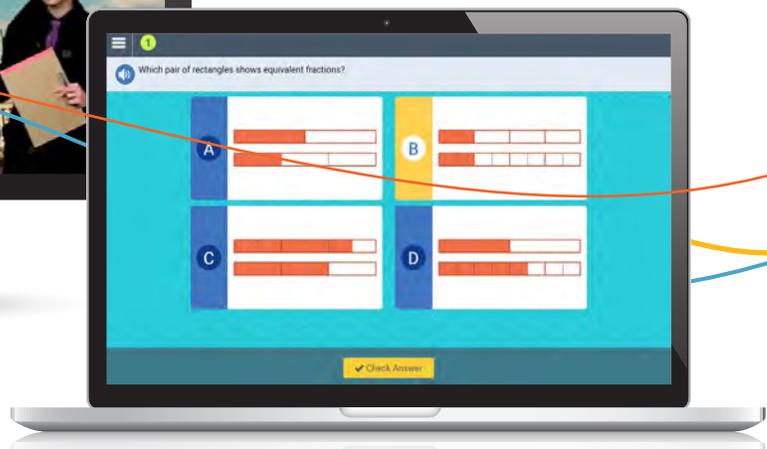

## ENCOURAGE ENRICHMENT AND ACCELERATION

Edgenuity offers online courses for grades K–12 in ELA, math, science, and more, as well as world language, elective, CTE, dual credit, and AP® courses for middle- and high-school students.

## PREPARE STUDENTS FOR HIGH-STAKES EXAMS

Edgenuity's Virtual Tutor courses offer comprehensive test readiness to prepare students to be successful on high-stakes and end-of-course exams, like the SAT®, ACT®, GED®, HiSET®, and TASC™.

# Provide Instruction at School or at Home

The flexibility that comes with Edgenuity's learning solutions empowers schools and districts to design summer school programs that meet their specific needs.

## INSTRUCTION AT SCHOOL

Teachers from your district can use the Edgenuity curriculum with students at school or another location within your district.

## INSTRUCTION AT SCHOOL + HOME

Allow students to divide their learning between school and home with Edgenuity's virtual instructors, who can act as the teacher of record.

## INSTRUCTION AT HOME

Edgenuity's virtual instructors enable students to complete all their learning online, and help you save on operating costs.

## ON-DEMAND TUTORING

When using Instructional Services, our concept coaches are available six days a week to offer students extra help so they can move forward without struggling.

## Prepare Your Students for High School

Our summer bridge course suite is made up of three courses—Algebra Readiness, ELA Foundations, and Introduction to Online Learning—and helps prepare students for the increased rigor of high school.

Each course features interactive instruction, practice tasks, assignments, and assessments to provide targeted reinforcement so students are ready for grade-level work and can successfully transition from eighth grade to ninth grade.

Explore summer  
school options for  
your **whole district.**
