Give your students a high-quality education safely and securely, even when they are unable to attend traditional schools, and that also frees up time for teachers to spend on instruction.

Edgenuity’s online learning solutions help students take ownership over their learning, and engage and motivate them to continue their education, while also offering them the flexibility they need to be successful.

SECURED DEPLOYMENT
Our safeguarded technology can be used in contained environments to supply quality education to at-risk and adjudicated students, as well as traditional schools. This allows for:

- Secure access to Edgenuity's instructional platform
- Collaborative planning between districts, alternative facilities, and Edgenuity
- Flexible content delivery and student monitoring
- Consultation on best practices for online learning and virtual instruction
- Transferring of student progress to home schools

ONLINE COURSES TO MEET STUDENT NEEDS
Edgenuity offers over 300 core curriculum, CTE, general elective, and initial credit and credit recovery courses for students of all skill levels. Courses also feature embedded learning scaffolds and tools to support the unique needs of all students.

TEST READINESS SOLUTIONS
Edgenuity’s test readiness solutions provide the targeted instruction and practice students need to master grade-level skills and be successful on high-stakes tests, including end-of-course and high school equivalency exams.

VIRTUAL INSTRUCTION
The online curriculum in Edgenuity Instructional Services is aligned to state standards and can be taught by our highly qualified, state-certified virtual instructors. Students can enroll in as many classes as they need at any time with rolling enrollment, and multiple layers of support give students everything they need to be successful.
