Edgenuity® is proud to partner with Middlebury Interactive Languages™ to offer schools a new way to boost learning outcomes for English language learners (ELLs). This standards-based blended learning curriculum focuses on the fundamentals of academic English and literacy development for students in grades 4–10.

Students will complete age-appropriate projects that relate to core instruction through a culturally inclusive curriculum that favors multicultural perspectives. Courses align with WIDA and the Common Core standards, and are focused on basic interpersonal communication skills and cognitive academic language proficiency, so students learn both the social and academic aspects of the English language.

By learning through a combination of individualized task-based activities and collaborative project-based learning, students develop critical thinking, reading, writing, and communication skills, and improve their English.
Online Courses for Students of Varying English Language Proficiency

Designed by language experts, these ELL courses provide students opportunities to engage with grade level–aligned academic content and collaborative projects in English. Course design supports effective use in blended learning environments, in ELL-intensive classrooms, and for ELL students in ELA, math, science, and social studies classrooms.

Instruction spans skills and concepts covered in grades 4 through 10, and the elementary- and middle-school courses have multiple levels for students of varying English language proficiency. Courses feature over 100 hours of content for blended learning, and the themes can be completed in any order to align with classroom instruction.

**ELEMENTARY SCHOOL ELL COURSES**
- For students in grades 4 and 5
