

# Edgenuity® Summer School Solutions

Online Summer School Programs for K–12

## Design A Cost-Effective Program That Meets Your Needs

Whether your students require credit recovery, acceleration, or intervention, Edgenuity® can help you establish a summer school program that meets all of your school or district's needs — even providing virtual teachers, when staffing is a concern.

**Let's work together on your academic goals to design a summer school implementation that will meet students where they are and motivate them to move forward with:**

- Course acceleration or advancement
- Credit or concept recovery
- Targeted intervention in reading and math
- Summer enrichment for high school preparation
- General elective and world language courses
- National and state test preparation, including the PSAT®, SAT®, ACT®, and GED®

## Certified Virtual Instruction for Summer Learning

Experienced teachers, virtual classrooms, and real learning – we've got you covered. Keep operating costs down by letting students complete their work entirely online or divided between school and home. With our highly qualified, certified virtual instructors and on-demand tutors, your students have access to real teachers providing hands-on support every step of the way.\* Serve more students, while solving the common problems you face every year — like staffing summer programs.

\*New for 2021 – live, small group, teacher-led office hours for Booster Courses

# Extend Learning Time with **Flexible** Summer School **Options**

## Help Students Catch Up

### **CREDIT RECOVERY COURSES**

Customizable courses meet students where they are with self-paced learning and pretesting.

- Students spend more time on what they need the most help with
- Take an entire course or focus on only the skills or concepts they missed
- Complete courses either on or off-campus or in a hybrid learning option

## Tackle Learning Loss

### **MYPATH K-5 FOR READING AND MATH**

Help teachers close student achievement gaps in math and reading using age-appropriate, adaptive lessons.\*\*

- Meet students where they are, help them recover credits, and get them on grade level
- Reinforce state standards with personalized and adaptive instruction
- Provide ongoing data and analytics for educators

## Prepare Students for Success

### **BOOSTER COURSES**

Short ELA and Math courses prepare students for success as they enter grades 6–12 by providing:

- Upfront diagnostics that inform individualized learning paths
- Focus on core competencies most critical for grade-level success
- A 5–8-week learning option tailored to a summer school timeframe

### **HIGH-INTEREST CORE AND ELECTIVE COURSE OPTIONS**

- Prepare for college and career readiness with CTE, STEAM, or Arts electives
- Meet graduation or prerequisite requirements
- Provide schedule flexibility or a jump start for the following year

## Improve Students' Mental and Emotional Health

### **SOCIAL AND EMOTIONAL LEARNING**

Improve academic performance, increase students' ability to manage stress, and support healthier student attitudes.

- Bolster mental health with a robust 6–12 SEL curriculum
- Build positive mindsets and help students prepare to head back to school
